2. Mission Statement and made this choice:

The purpose of this committee is to bring forward to the Board of Trustees fiscally responsible, community driven, short, medium, and long term recommendations for the welfare, benefit, and enjoyment of the residents of Bayshore Gardens Park and Recreation District.

3. Continue Discussion on 5 to 10 Year Plan:

Discussed the need for a survey to establish what the community wants or needs. It was decided by our committee that Survey Monkey would be the best way to get the most input from residents. Possibly, sending a postcard to notify residents of the survey. The survey should be short and include all three phases of planning.
