BAYSHORE GARDENS GARDEN CLUB

Minutes for February 05, 2024

The meeting was called to order at 1:00 by Marlene Durgin, President. Thirteen were present.

Kathy Rowe announced that the Manatee River Garden Club will have their NGC Flower Show named 'It's a Barbie World' on Friday, March 1st (1:00 to 4:00) and Saturday, March 2nd (10:00 to 4:00). Their address is 3120 First Ave West, Bradenton.

Marlene asked for a motion to accept the January Meeting Minutes which were posted in the February Banner. Winnie Denny-Smith moved to 'accept' and Melanie seconded the motion.

Joyce Fisher passed around the Roster for input on spelling and numbers. The advertised trip to Palmer's Orchids had been postponed/cancelled due to a \$10/head fee.

Marlene introduced John Dawson, Master Gardener to present on Orchid care. John said the Master Gardeners Spring sale will be March 23, 9:00 to 1:00.

Presentation

John Dawson started the presentation with fun facts: Orchids are the largest flowering plant family. There are 26,049 Orchidaceae species found in 880 genera. Fossil records go back to over 15 million years. Found on all continents except Antarctica. Found in all US States. The closest living relative is Asparagus. Flowers are edible. Can live over 100 years. They are not as fragile or expensive as most believe. We have 26 Species in Manatee County. New names are registered in England.

There are four basic types of orchids: Epiphytes (air plants), Lithophytes (grow on rocks), Saprophytes (grow in decaying matter in forest floors), Terrestrials (send their roots into the soil).

HOMEOWNERS ASSOCIATION

February 2024

The meeting was called to order by the President Dan Rawlinson with the Pledge of Allegiance to our Flag. The Secretary's Report was read and approved, followed by the Treasurer's Report which was also read and approved. Membership for the Homeowners Association is now 37. Final plans for the February Pancake Breakfast were discussed and the menu will consist of pancakes, sausage, eggs, biscuits, gravy, fresh fruit, juice, and coffee. Our Chefs will be Marlene, Garth & Gwen who we thank so very much for their help. Discussion followed about the \$4.00 guest fee, and it was decided to raise the guest fee to \$5.00 beginning in March. Homeowner's Members are free.

A lively discussion followed with many suggestions for speakers at our meetings. We will try to take a poll of residents to see who they would like to have at our meetings. The list included: Code Enforcement, Coast Guards, Insurance, Auto Maintenance, Manatee County Utilities, TECO, Burglar Alarms, Ask a Nurse, our County Commissioner, Fire Department, Sheriff's Department, Fishing Expert, Voter Registration, Banker, Investments, Weather, and Guide Dogs. If any of these subjects grab your interest, please let us know.

Other discussions included so many activities that we could be doing. We currently have an active Yacht Club, Garden Club, Woodchopper's Club, Bunco Night, Game Night, Tri-ominos, Line Dancing Classes, and Zumba Class but we could have so much more. Card games, board games, bingo, dances, trivia night, talent show, fashion show, Easter Egg Hunt, 4th of July party, Halloween party, Christmas parties - kids and adults, New Years Eve Party, but we need volunteers for the last ones, ice cream social, attic sales. Craft sales, potlucks, dessert potlucks, bonfires, picnics, snow cones pool parties, wine and cheese game night, scavenger hunts, hayrides, bus trips, boat tours.

Garden Club, Continued from Page 4

John went over the two growing patterns and the parts of the flower (Sepal, Petal, Stigma, Anther). The orchid tag name breakdown was defined. Always keep the name tag with the orchid as it shows Genus, etc. White flowers attract night pollinators, moths. Some colorful blooms are created by adding coloring to the watering.

John warned that most orchids are killed by improper watering. Only the roots should be watered, and water should never be standing on the leaves. Water pH should be between 5.3 and 6.5. adding a small amount of fertilizer and a dash of Epsom salts is good. Tap water is generally pH7 and rain pH6.8. The trace minerals needed are nitrogen, phosphorus, Potassium, Sulfur, Calcium, Magnesium, Boron, Copper, Iron, Manganese, Molybdenum, and Zinc. Use nitrate nitrogen or ammoniacal nitrogen, NOT Urea.

The air is 78% nitrogen. Most of the orchid's nitrogen is from the air, thus 'air plant'. The orchid needs proper light, water, and air circulation. Growing temperatures depend on the plant. Always sanitize tools to avoid spreading pests and diseases.

Several local vendors, suppliers, orchid societies were given for contact. John suggested that interested beginners spend time researching orchids online, going to nurseries and talking with growers and buy large plants in bloom. John demonstrated how to trim (roots), transplant and stabilize a transported orchid using wire clips. It takes about eight years from seed to bloom. There are simple treatments for pests and fungi. At times cinnamon is also a secret ingredient. Enjoy the success of growing an orchid. And remember to always keep the orchid name tag. We thanked John Dawson for a wonderful presentation.

Kathy Rowe presented the 'Thought of the Day'. "Today I blossom with joy and beauty. Thank you, Life". We enjoyed the sweet refreshments provided by Suzanna Young. Thank you all. See you in March.
